

Wider Opening Information For Parents and Carers

Measures Asquith Primary School are implementing to safeguard your child, your family and the wider school community

Safeguards in Place	
Pupil Attendance 	• Only children with a confirmed place can attend • Pupils are to wear their own clothes, suitable for outdoor learning and physical activity (no sandals please). A fresh set of clothes must be worn everyday • Children without a confirmed place will not be allowed in the school building • If your child has a continuous cough and/or high temperature and/or loss of smell and taste they must not come to school and you have to call 111 to discuss potential testing, you must also inform the school as soon as possible • Trust and honesty between school and families is essential • If a pupil wants to return to school, after the set year group reopening date, they will need to contact the school office and will be put on a waiting list to be assigned to a bubble
Pupil Arrival 	• Children will arrive at different times to avoid too many arriving at once, it is essential you arrive in your set time frame for your child's bubble • No more than 1 parent/adult per child/family • One-way system in place around school • You will be asked to say goodbye to your child outside school as no parents are allowed on the school site (except the school office by prior arrangement) • Children will wash their hands regularly throughout the day including – arrival, break time, before lunch, after lunch, home time • Children/families should remain 2m away from other children/families • NO CHILD should be in school if symptomatic, they'll be isolated immediately and sent home

School Staff 	• Your child will be taught in a small group – “bubble” of no more an 15 children • We will endeavour to try to keep the same staffing pairs with your child • Staff will communicate with parents via phone calls, emails and App messages when needed as no parents are allowed on the school site. • Members of the office team will be available from 8am-3.30pm each day on the telephone and via email. • Staff will have access to PPE, but only when required (first aid, changing, symptomatic child)
Classroom 	• Children will sit on a single table which will be 2m away from others where possible • It will be the same table daily for each child • Children will be given their own individual set of resources they need. • Children’s coat, drinks bottle and lunchbox will be kept at their table to avoid use of the cloakrooms • Children are NOT allowed to bring any additional items from home, including a bag/book bag • Behaviour Expectations will be made clear and staff will frequently remind pupils • Windows and doors will, wherever possible remain open for ventilation
Behaviour 	• There will be an ‘update’ to the way we expect your child to behave in school to reflect changes in order to keep everybody as safe as possible : “Stay in your bubble – ‘Take Care’ - Wash your hands” • If your child does not follow school rules and puts other children at risk, you will be asked to collect them • Coughing deliberately and/or spitting deliberately at any member of the school community is now in serious breach of our school behaviour expectations, your child will be sent home and their place in school could be withdrawn
Break 	• Children will wash their hands before and after any play time • Children will remain in their new ‘bubble’ and not mix with other ‘bubbles’ • Children will play in a designated space to keep them away from other groups – only one ‘bubble’ of 15 on the playground at any time. • All games will be non-contact games

Lunch 	• Children will wash their hands before and after lunch time • Children will be looked after by staff outside as part of their bubble • Children will have their lunch in their bubble room at their table with their bubble staff (tables will be cleaned before lunch by bubble staff while children wash their hands) • All lunches will be packed lunches, either brought from home or provided by the school kitchen
First Aid/Child with Symptoms 	• Staff will wear appropriate PPE when dealing with a child • If children develop symptoms such as continuous cough and/or high temperature and/or loss of smell and taste at school they will be moved to an isolated room and you will be asked to collect them immediately • A member of staff will remain with them until they are collected • The entire household is then to remain isolated for 14 days; it is essential to contact school if your child has tested positive for COVID19
Cleaning throughout the day 	• Our cleaning team have had their daily routine heightened to add in additional cleaning measures • Each bubble throughout the day will have all 'touch points' e.g. desks, taps, light switches, door handles cleaned frequently by bubble staff • Toilets will be cleaned regularly
Home Time 	• Children will leave at different times to avoid too many leaving at once • No more than 1 parent per child/family to collect • Pick up locations will be allocated when your child's place is confirmed • It is essential you pick up within your set time frame for your child's bubble • One-way system means all parents and pupils will exit the school site through designated exits • Children and families must leave the school premises immediately
