12th December 2025

Dear Parents/Carers

We have had a couple of suspected cases of Mumps in school. Please click on the link below to find out more information about the symptoms and what to do if you think your child might have Mumps:

[Mumps - NHS](#)

The only way to protect your child against Mumps is to have them vaccinated. The MMR vaccination is normally given at 1 year and 3 years 4 months to provide full protection. We have been asked to encourage parents/carers of children missing one or both vaccinations to catch up. This can be done at any age (adults included). Parents/carers would need to contact their GP to check their records and then make an appointment.

Further information can be found on the school website by clicking the link below:

<https://www.asquith.notts.sch.uk/information-from-nhs/>

As a school we have implemented additional cleaning and touch point cleaning at lunchtimes, and have reduced the movement of children between the Key stage buildings.

If you have any questions in relation to the above please email
parentsinfo@asquith.notts.sch.uk

Regards

pp Mrs Susie Graham
Headteacher
